DOGM Lead:

## STATE OF UTAH DEPARTMENT OF NATURAL RESOURCES DIVISION OF OIL, GAS AND MINING

1594 West North Temple Suite 1210 Box 145801 Salt Lake City, Utah 84114-5801 (801) 538-5291

Fax: (801) 359-3940

#### NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1987, and the General Rules as promulgated under the Utah Minerals Regulatory Program.

"Small Mining Operations" means mining operations which disturb five or less surface acres at any given time.

GENERAL INFORMATION (Rule R647-3-104)

Name of Mine: Dry Creek Mine Name of Operator/Applicant: Tim Fain ALL GYPSum Corp. 2. Company () Corporation (x) Partnership () Individual () Permanent Address: 7601 Ribier Avenue State: Ca Zip Code: 93241 City: Lamont Telephone Number: (805) 392-9400 or 801-586-8740 7 Daughtu 801-559-8740 5 Son-in-law Ownership of Land Surface: Private (Fee) National Forest (USFS) □ Public Domain (BŁM) □ State Trust Land/School Sections □ State Sovereign Lands □ Other (please describe): Name York Jones Address 228 So. 800 We. Cedar, Ut 84720

#### III. OPERATION PLAN (Rule R647-3-106)

1.	Type of mining: Surface ⊠ Underground □				
2.	Mineral(s) to be mined: GYPSUM				
3.	Provide a brief description of the proposed mining operation and onsite processing facilities. <u>CYPSUM</u> to be removed by Loadens & Truck. Transported to rail site  See Documents ArBrC and See  Document D (Shows mine Completed) also  Document E (Road Description). This  Was an existing mine in 1924. Descriped Roads  are existing.				
	Improved Road(s): Length 250 (ft) Width 25 (ft)  Total project surface acreage to be disturbed: 5000 (acres)				
	Proposed startup date of project (month, year) November 10, 1997				
	Proposed completion date of project, if known (month, year) UNKNOWN				

#### IV. OPERATION AND RECLAMATION PRACTICES (Rule R647-3-107, 108 & 109)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining:

- 1. Keep the mining operation in a safe, clean, and environmentally stable condition.
- 2. Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.
- 3. Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.
- 4. Construct berms, fences, or barriers, when needed, above highwalls and excavations.
- 5. Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.
- 6. Remove all waste or debris from stream channels.
- 7. Dispose of any trash, scrap metal, wood, machinery, and buildings.
- 8. Conduct mining activities so as to minimize erosion and control sediment.

- Reclaim all roads that are not part of a permanent transportation system.
- 10. Stockpile topsoil and suitable overburden prior to mining.
- 11. Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.
- 12. Properly prepare seedbed to a depth of six inches by ripping, discing, or harrowing.
- 13. Reseed disturbed areas with adaptable species. (The Division recommends seeding 20 lbs./acre of native and introduced species of grass, forb, and browse seed, and will provide a specific species list if requested.)
- 14. Plant the seed with a rangeland or farm drill, or if broadcast seeded, harrow or rake the seed 1/4-1/2 inch into the soil - fall is the preferred time to seed.

v.	VARIANC	E REQUEST	(Rule R647-3-110)
	Yes □	№ 🕱	
	Rules R647-3-107, Operation Practices, R647-3-108, Hole Plugging Reclamation Practices, as summarized above, should be identified or the variance request(s).
